If your pet is on any type of medication your signing below also allows our staff to administer those medications per your directions and/or the label directions on the medication.

****An exam will be done on your pet by a doctor or technician. If we find any abnormalities you will be notified.****

We strive to give your pet the best care possible while you are gone. However, many pets are uncomfortable while away from home. You may notice some weight loss and they may have a "kennel" smell about them. These are soon changed with a bath and getting back home. If you would like your pet bathed please request at check-in.

We cannot be held responsible for lost or chewed up belongings that are left with your pet.

During your pets stay if minor medical attention is needed your signing below allows us to do so without contacting you. In a life threatening situation treatment will be given to stabilize your pet and you will be contacted immediately as to whether or not you would like us to continue with treatment. If for some reason you are unavailable at the time please circle a dollar amount below that you do not want us to exceed.
